## Education

### Ekiti State University Ado-Ekiti

Bachelor of Engineering in Computer Engineering (B.Eng Comp).

## Interests

Reading manga, travelling, watching anime, listening to music, learning new scientific things.

## Skills

- Frontend Development
- Backend Development
- Full Stack Development
- DevOps
- Software Design
- Mobile Development
- Problem Solving
- Version Control Systems
- Software Testing
- Problem Solving Mindset
- Data Structures and Algorithms
- Web Development
- AI and Machine Learning
- Database Design, Creation and Management

## Programming Languages

Javascript, Typescript, C#, HTML, CSS, Python, Kotlin.

## Libraries & Frameworks

NodeJS, ReactJS, React-NativeJS, NextJS, .NET-CORE, ASP.NET-CORE, Blazor.

## Technologies

Cloudinary, Firebase, Bootstrap 5, Docker, Git, GitHub, Tailwind, Expo, Vite, Webpack, Figma, Heroku, AWS, DigitalOcean

## Projects

### NoSQL JSON Database

Simple and quick database to help development process and speed up testing.

### Figma Store Clone

figma.danielbello.dev

A near perfect clone for the figma store website, replicating core sections of the website.
